

Puneet Gupta
Chief Technology Officer
Brillio

Puneet Gupta is Chief Technology Officer of Brillio and is responsible for the company's technology and innovation strategy. He is a member of the senior leadership team and oversees Brillio's development of leading technologies to deliver best-in-class products and solutions to their customers. Puneet has held leadership roles that span a number of technology segments, including software, mobility and multi-channel solutions.

Prior to joining Brillio, Puneet was with Infosys, including head of mobile and multi-channel digital experiences in COE and Infosys mobile computing product line. He was a principal researcher of convergence labs where he spearheaded mobility, RFID, wireless and pervasive computing research at SET Labs. Previously, Puneet was with Bell Labs, Lucent Technologies as architect for wireless and mobility. He was a founding partner at ACE software and mobility solutions, where he focused on developing mobile internet platforms for service providers and enterprises.

As a recognized researcher and thought leader for the past two decades, Puneet has been immersed in conceptualizing and driving market-driven initiatives, generating intellectual property and building product lines in the areas of mobility, social, wireless and pervasive computing. Currently, he holds patents in mobile, social technologies and user experiences with over 60 granted and pending patents. Furthermore, Puneet is a recognized author with over 100 published articles and is a frequent speaker and panelist at worldwide technology conferences.
